

CITY OF WELLAND

POLICY

Policy Title: Sewer Connection to Weeping Tile Prohibited	
Date of Approval: August 16, 1994	Policy Number: SER-002-0005
Lead Role: Chief Building Official	Support Role: City Engineer
Cross Reference:	Next Review Date:
Council File Number: 94-141	Revision Date:

Policy Statement:

- 1) That the connection of foundation drains/weeping tiles to a sanitary (or combined) drainage system be prohibited in new building construction except as permitted in (2) and (3) below:
- 2) That connection of foundation drains/weeping tiles to a sanitary (or combined) drainage system is permitted where a storm drainage system/surface drainage plan does not exist;
- 3) That connection of foundation drains/weeping tiles to a sanitary (or combined) drainage system may be permitted in minor additions to existing buildings already so connected if prior approval is received from the Chief Building Official.
