

SPRING BRINGS OUT THE STREET SWEEPER PROGRAM

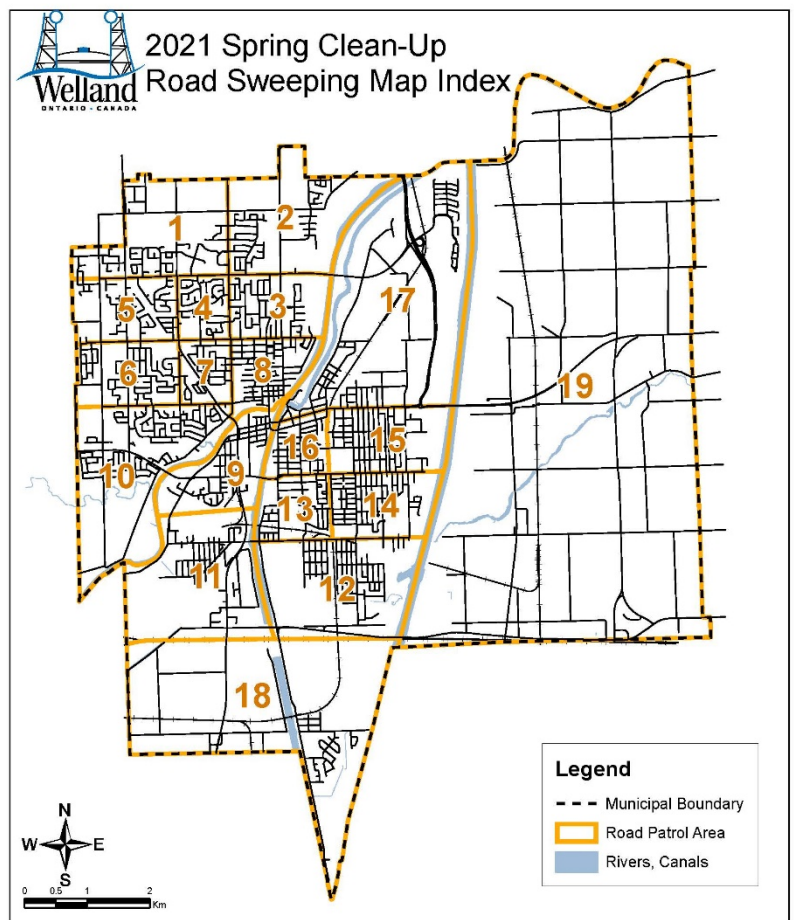

Welland, ON – The City of Welland Public Works Division will initiate the street sweeping program of city roadways on April 12, 2021. Although this program has the potential to pause due to weather-related conditions, staff anticipate the program will take approximately four to six weeks to complete. City staff will commence street sweeping within zone one and will continue systematically to zone 19.

Sweeping creates a healthier environment because it reduces dust and other airborne contaminants. The street sweeping program also reduces the amount of material that washes away into the storm-water system, which ultimately leads to the canal, river, and creeks.

How can you help?

- Please refrain from parking your vehicles on the road during this period
- Please refrain from sweeping your driveway and sidewalk debris onto the roadway
- Do not sweep the gutter or edge of road material into a pile
- Please remove hockey and basketball nets from the edge of the road

For inquiries regarding the city's street sweeping please contact Public Works at 905 735-1700 Ext. 3000
