

*Bridging the Past, Present and Future*

---

## Welland Active Transportation Advisory Committee

### -Agenda-

September 24, 2018 6:30 – 8:00 PM

.....

**One proposed definition for walkability is:** "The extent to which the built environment is friendly to the presence of people living, shopping, visiting, enjoying or spending time in an area".<sup>[3]</sup> Factors affecting walkability include, but are not limited to:

- Street connectivity
- Land use mix
- Residential density (residential units per area of residential use)
- Presence of trees and vegetation
- Frequency and variety of buildings
- Entrances and other sensations along street frontages
- Transparency, which includes amount of glass in windows and doors, orientation and proximity of homes, and buildings to watch over the street
- Plenty of places to go to near the majority of homes
- Placemaking, such as street designs that work for people, not just cars

Major infrastructural factors include access to mass transit, presence and quality of footpaths, buffers to moving traffic (planter strips, on-street parking or bike lanes) and pedestrian crossings, aesthetics, nearby local destinations, air quality, shade or sun in appropriate seasons, street furniture, traffic volume and speed.<sup>[1][5]</sup> and wind conditions.

Walkability is also examined based on the surrounding built environment. Reid Ewing and Robert Cervero's five D's of the built environment—density, diversity, design, destination accessibility, and distance to transit—heavily influence an area's walkability.<sup>[6]</sup> Combinations of these factors influence an individual's decision to walk.<sup>[7]</sup>

.....

**Welcome, Guest Introduction and Self Introductions**

**1. Minutes (August 13, 2018) as circulated – (Minutes Not Available?)(**

**2. Motion to Adopt Minutes of August 13, 2018 – (See above!)**

**3. Additions to the Agenda, Declaration of Conflicts of Interest?**

**4. Business arising from the Minutes**

- Report from Slow-Roll Sub-Committee -, Assunta Piccini, Ed van Vliet
- Bike Valet Sub-Committee Report (Feast Street 2018) – Ed van Vliet
- Strategic Planning (Walk Friendly Application) – Harry Sawchuk
